MdeAS Architects is an award-winning architecture firm based in New York City. Established in 1991, the firm is recognized for its commitment to simple forms and intelligent transformations. MdeAS' body of work is varied across project types, including commercial, residential and public spaces. Working on prominent properties both internationally and domestically, the firm responds to each client's goals and vision, consistently adding value to existing buildings and maximizing the potential of new developments. MdeAS articulates the architecture's existence with the wisdom of experience and the vitality of a creative design team.

This is a full-time position; salary will be commensurate with experience. A competitive benefits package is also offered, including health & dental insurance and 401(k).
