

## **Sutro Architects Job Openings**

Sutro Architects is an award-winning and design-oriented firm specializing in high-end residential and commercial projects. We are looking for professional, thoughtful, and self-motivated individuals at all levels to join our growing office. In addition to working as a team on larger projects, our firm believes in early responsibility for those architects willing to take on a challenge and run their own projects. We work on beautiful projects across a spectrum of styles and take our design seriously, but our people and culture are both collaborative and fun.

Successful candidates will be strong team players with ability to work independently on all project phases, from schematic design to construction administration. Excellent knowledge of AutoCAD / Sketchup / Adobe CS is a must. Proficiency with Revit and Rhino 3D modeling software is preferred.

The position is full-time and offers a competitive salary and benefits package that includes health insurance, 401k, and incentives to gain professional licensure and LEED® certification.

To see examples of our work, visit [www.sutroarchitects.com](http://www.sutroarchitects.com).

### **Qualifications**

- Bachelors or Master's degree in Architecture from an accredited college/university
- Previous architectural office experience
- Experience or demonstrated interest in residential projects
- Ability to work both independently and in a team environment
- Excellent verbal and graphic communication skills
